

BENEFITS OF ALKALINE WATER

- Restore the pH Balance in the Body
- A higher pH in the body reduces the need for fat and cholesterol to protect the body from damaging acids.

ALKALINE WATER & WEIGHT LOSS

- Research by Dr. Robert O. Young, author of *The pH Miracle for Weight Loss*, shows that the epidemic of obesity in the industrialized world is strongly correlated to **acidity in the body**.
- The modern diet of meats, grains, and beverages such as coffee, tea, soft drinks and alcohol is **extremely acidic**.
- **Fat cells bind to acids**. These fat cells store excess acids in the body, resulting in stubborn weight gain.
- **Cutting calories is not enough!** This is why diets often fail.
- **Exercise produces acids in the body**, such as lactic acid. Many acids are released through perspiration, but some are retained by the system, causing **pain in muscles**. **Drinking alkaline water helps in faster recovery by promoting hydration and promoting an alkaline environment for your muscle cells.**
- When freed of toxins, the body's cells, tissues, and organs achieve a **healthier state**.
- A detoxified, non-acidic body has **more energy and vitality**.
- **Did you know?** One glass of water shuts down midnight hunger pangs for almost 100% of the dieters studied in a University of Washington study.

ALKALINE WATER ASSOCIATED WITH ANTIOXIDANT PROPERTIES

- Alkaline water is a natural "antioxidant" due to its negatively charged ionic structure.
- Getting older and aging is not the same thing.
- Aging relates to the breakdown of tissues in the body.
- Aging is accelerated by many factors, some of which are time and damage to bodily tissues by organic acids and by active oxygen (free radicals).
- Drinking ionized alkaline water can help neutralize acids and scavenge free radicals in the body.
- A proven scavenger for free radicals is active hydrogen.
- Active hydrogen is produced in water using electrolysis, the process used to ionize drinking water.

ALKALINE WATER IS SUPER-HYDRATING

- Research indicates that 8-10 glasses of water a day could significantly ease back and joint discomfort for up to 80% of sufferers.
- A mere 2% drop in body water can trigger fuzzy short-term memory, trouble with basic math and difficulty focusing on the computer screen or on a printed page.

THE NEXT GENERATION OF HEALTH IS HERE!

Our newest technology, Lazer Energy Technology™ (patent pending) erases negative energies in water caused by toxins and processing. Lazer Energy Technology™ generates and encodes hundreds of positive and healthy energy frequencies into water that help balance and restore the body's subtle energy systems.

What this means to you is that your water is more than just purified and ionized—it's healthy, energized, and balanced!

Today's drinking water has been treated with so many chemicals and recycled so many times that it has been rendered a lifeless, tasteless liquid. Its still water, but much of the good has been lost. Even worse, many toxic things like chlorine are added to make water "safer". This makes the water you drink much like the air you breathe in an airplane. You can breathe it, but the air is markedly stale and probably lacking in oxygen.

But just as you can filter and ionize the air, and make it healthy with an air ionizer machine, you can do the same for water with a water ionizer. The ions created with a water ionizer machine are natural antioxidants. Water is transformed, re-vitalized and alkalized with needed minerals, such as calcium, potassium and magnesium. This process returns water to its natural state, as it is found in glaciers.

When water is ionized, its surface tension is reduced. This process is known as micro-clustering and it makes ionized alkaline water "wetter" than plain water. This goes for all tap water, bottled water and reverse osmosis water. None of these have had the natural micro-clustered effect returned to them. The applications of this "wetter" water can be applied in health and even cooking. Micro-clustered water is better absorbed for improved hydration.

We at LIFE Ionizers® are most concerned about the epidemic of chronic dehydration. People need to drink more water. We are clearly a dehydrated society. Next to the air we breathe nothing is more needed by the human body than water. Why not drink the best water available and at the same time embrace a technology that eliminates the ecological disaster of plastic water bottles?

LIFE Ionizers®

LIFE Ionizers® is...

- Recommended by "People Against Cancer" Organization
- The only Ionizer with UV Light Technology™ (patent pending)
- The only Ionizer listed in the Physicians Desktop Reference (PDR)
- The only Ionizer with laboratory grade Vitamin C Ceramic Technology™ (patent pending)
- The only Ionizer that comes with a water quality report & FREE pre-filter
- Backed by a LIFEtime warranty
- The only Ionizer to use Energy Frequency Technology™ (patent pending) & our **NEW Lazer Energy Technology** (patent pending)
- Certified Lead Free by the WQA
