

Waterite presents The Answer.

Presenting the Filter Soft *Triplex*TM filter system – The answer for many small system water treatment problems, from seasonal camps to process treatment. Now available in rugged 10" and 20" full flow housings with flow rates to 20GPM. Mix and match cartridges to achieve *your* answer, from sediment and chlorine

reduction to absolute cyst and parasite control. Ask about Waterite's quality line of *Excelpure*TM cartridges and our full line of Harmsco and Pentek cartridges to assist in your system solution.

Or now choose *Triplex*TM with a Trojan UVMax ultraviolet disinfection, for added system protection.
